

A crystal clear, highly durable dry-brite floor finish which combines the finest polymers, acrylics, and synthetic waxes with our special fluorescent brightening agent, the OPTIMA *G/E (GLOSS ENHANCER). Scientifically engineered utilizing a dual cross-link mechanism, molecularly fusing the polymers for incomparable wearability. Achieves superb results without powdering, swirling, peeling, or cracking when used as directed. Time tested durable, high gloss finish for low maintenance schedule applications.

DIRECTIONS FOR USE Initial Application

1. Remove all old wax and floor finish with appropriate stripper.
2. Rinse floor thoroughly and allow to dry.
3. Using a clean mop, apply a thin, uniform coat of finish. Allow to dry thoroughly (30 to 40 minutes). Apply additional coats in the same manner and let dry. **For very porous floors, an initial coat of floor sealer is recommended.**

NOTE: To avoid product contamination, do not return any unused material to original container.

Day-To-Day Maintenance

1. Sweep or dust mop as necessary.
2. Damp mop with proper cleaner following label directions. For accumulated soil, lightly scrub as required.
3. To repair finish, deep scrub and top coat following Step 3 above.

SAFETY DATA

CAUTION: KEEP OUT OF REACH OF CHILDREN. Do not swallow. May cause nausea. See Material Safety Data Sheet for further information.

FIRST AID: For eye contact, flush eye well with water and call a physician. If swallowed, get immediate medical attention.

NOTE: Water or other foreign substances will cause any floor finish to become slippery. **ALWAYS** use a "Wet Floor" sign when moisture is present.

SPECIAL INSTRUCTIONS

Engineered for safety. Exceeds industry standards for static coefficient of friction (ASTM2047/82).

CONTAINS: Water CAS# 7732-18-5, Polyacrylate CAS# N/A, P/E Wax CAS# N/A, Glycol ether CAS# 111-90-0, TBEP CAS# 78-51-3.
