

An easy-to-use, multi-purpose thermoplastic ultra high speed (UHS) floor finish restorer, spray buff, auto scrubber that combines the finest polymers, surfactants, synthetic waxes, and solvents. This product provides a brilliantly reflective shine. Designed to reduce mop and machine drag. Guaranteed not to attack or yellow floor finish when used as directed. Invigorating fragrance.

DIRECTIONS FOR USE AS SPRAY BUFF

1. Remove any gross soil such as gum, paper, etc. and dust mop floor. To prevent "shiny-dirt syndrome", a damp mop is recommended.
2. Dilute 1 part restorer with 3 parts cold water. Using a spray bottle with trigger sprayer, apply two or three full sprays on small area of floor. Do not over wet.
3. With proper spray buff pad, pass over area – first to spread product and fill blemishes – then return and buff to deep gloss.
4. Turn pad over or change as required.
5. After completion of spray-buffing, dust mop to remove loose residue left by pad.

DIRECTIONS FOR USE AS RESTORER

1. Floor surface should be thoroughly cleaned and allowed to dry.
2. A minimum base of 3-4 coats of a high quality high speed finish is required.
3. Dilute 3-6 oz. restorer with one gallon of cold water.
4. Using a clean mop, apply a very thin coat (wring mop thoroughly) of this solution.
5. Allow to dry, then buff with high speed polishing pad. Turn or replace pad as required, for best results. Frequency of restorer application will be determined by floor traffic and acceptable appearance levels. Under normal conditions, application once a week will assure continuous beautiful floor appearance.

Manufactured By:
CANBERRA CORPORATION
3610 Holland-Sylvania Rd.
Toledo, Ohio 43615

FOR USE AS A CLEANER

1. For normal light cleaning with mop dilute 1:40 (3 oz. per gallon).
2. When using product with a floor machine or automatic scrubber, dilute 1:60 (2 oz. per gallon).
3. For economy purposes, it is always desirable to experiment with various dilution ratios to best meet your particular requirements.

SAFETY DATA

CAUTION: Keep out of reach of children. Do not swallow. May cause nausea. See Material Safety Data Sheet for further information.

FIRST AID: For eye contact, flush immediately with water. If irritation persists, call a physician. If swallowed, call a physician immediately.

SPECIAL INSTRUCTIONS

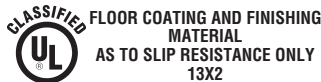

WARNING: Water or other foreign substances will cause any floor finish to become slippery. **ALWAYS** use a "Wet Floor" sign when moisture is present.

NOTE: To avoid product contamination, do not return any unused material to original container.
