

HIGHLY UNIQUE FORMULA... Effectively transfers most soils from carpet fiber to cleaning pad without leaving carpet tacky. Surrounds, lifts, and suspends soils for quick cleaning of traffic patterns. Special chemical blend lowers labor costs by extending periods between full scale cleaning. Safe for use on stain resistant carpet.

THREE PRODUCTS IN ONE... High performance solution can be used undiluted as a spot remover or diluted with water as a bonnet type cleaner or pre-spray prior to extraction procedures.

DIRECTIONS:

1. Vacuum carpet before cleaning.
2. Pre-test colorfastness before use. Do not use if color is removed, fades, or otherwise changes.
3. Dilute concentrate with water according to carpet soil load requirements.

Heavy	1:4
Normal	1:8
Light	1:16
4. Pretreatment of spots and stains is recommended.
5. Spray solution on small area of carpet (6' X 6') and scrub with a clean bonnet pad. Turn over or replace bonnets as they become soiled.
6. Allow carpet to dry before allowing traffic.

SAFETY DATA: CAUTION: Keep out of reach of children. May cause eye irritation.
