## SECTION VII – PRECAUTIONS FOR SAFE HANDLING AND USE

**Releases or Spills:** Remove all sources of ignition and ventilate area. Soak up spill with an inert absorbent and place into a designated disposal container. Consult local regulatory agency for proper disposition of material. **Waste Disposal Method:** Do not puncture or incinerate containers. When contents are depleted continue to depress button until all gas is expelled. Dispose of container in accordance with local, state and federal regulations. Disposal regulations may be different for each state and/or locality. **Handling And Storing:** Avoid breathing vapor. Keep away from heat, sparks and flame. Use with adequate ventilation. Do not puncture or incinerate containers. Do not expose to direct sunlight or store at temperatures above 120°F (48.9°C). Store as **Level 2 Aerosol (NFPA 30B)**. **Other Precautions:** Please read and follow the directions on the product label; they are your best guide to using this product in the most effective way, and give the necessary safety precautions to protect your health.

## SECTION VIII – CONTROL MEASURES

**Respiratory Protection (Type):** Non required if good ventilation is maintained. If exposure exceeds occupational exposure limits (Sec. II), use a NIOSH approved respirator to prevent over exposure. **Ventilation:** General ventilation is adequate under normal conditions; mechanical ventilation is optional.**Protective Gloves:** Chemical resistant gloves are optional • consult glove manufacturer to determine the proper type for a specific operation.**Eye Protection:** Safety glasses are recommended. **Other Protective Clothing or Equipment:** Wearing of impervious clothing to prevent skin contact is optional.**Work/Hygiene Practices** – Ensure strict sanitary conditions are conformed to when working around chemicals.

Protective clothing and equipment should be in accordance with 29 CFR 1910.132 and CFR 1910.133.
