

This exciting new product is composed of specially bred enzyme/bacterial cultures that actually attack and break down the uric acid molecules like nothing else before. It does its job by digesting the source, just the way nature does it... but does it in minutes rather than days or weeks leaving behind a pleasant vanilla aroma.

DIRECTIONS

Remove as much solid matter such as vomit or feces as possible from soiled surface. Spray area where odor is originating, including the urinals, toilets, carpets, floor and wall areas. Wipe area to remove any stains remaining on surface. Product may also be effectively mopped on floor areas and around washroom fixtures.

Allow the formula to remain and dry on the surface. The enzyme's natural pastel color will not stain. Pre-test on surface in an inconspicuous area. Do not use if surface discolors.

CAUTION:

Eye irritant. Harmful if swallowed. First Aid: Internal-Give large quantities of water. Do not induce vomiting. Get immediate medical attention.

External- Flush with water. Wash with soap and water after handling. Eye Contact- Flush with water for 15 minutes. Get medical attention.

CONTAINS: Water CAS# 7732-18-5, Bacteria Cultures No CAS#, Suspension Aid CAS# 26027-38-3.

HUSKY 401 URIC ACID ERADICATOR
Eye irritant. Avoid contact with eyes. Wear suitable protective clothing. If in contact with eyes, immediately flush with water for 15 minutes. Call a doctor if irritation persists.
