

Safe on standard and plastic pipe, septic systems and garbage disposals. This fast acting drain opener has been formulated with institutional grade equipment and drains in mind. Superior in its ability to improve slow drains, this dynamic formula pierces through standing water to effectively and quickly unclog the toughest of stopped drains.

DIRECTIONS FOR USE

For Slow Drains... pour one half bottle (16 oz.) slowly down affected drain. Wait 15 minutes then flush with hot tap water. Repeat if necessary.

For Clogged Drains... pour entire contents of bottle (32 oz.) slowly down affected drain. Wait sufficient time to allow drain to clear then flush with hot tap water. Repeat if necessary.

For use in garbage disposal drains... follow same instructions for slow or clogged drains. If drain does not clear, do not switch on the disposal to prevent chemical splash back. Consult plumber.

Regular drain maintenance...

To maintain free running drains; 2-4 ounces per week may be applied to each affected drain.

PRECAUTIONARY STATEMENT:

DANGER: KEEP OUT OF REACH OF CHILDREN
Can cause eye or skin damage on contact.

DANGER: Contains Sodium hydroxide and Sodium hypochlorite. Use in well ventilated area. Avoid contact with eyes or prolong contact with skin.
