

ELIMINATES NEED FOR MACHINE SCRUBBING... A new, innovative, deep penetrating stripper that needs no machine scrubbing. Simple mop agitation dissolves the toughest metal interlock finishes, permitting fast pick-up with mop or wet vac.

ELIMINATES RINSING... No neutralizing rinse is necessary... leaves the floor ready for a new application of floor finish.

SAVES TIME AND LABOR... Since 90% of most stripping tasks are labor, this product can cut costs dramatically. Overall stripping time may actually be cut in half.

GENERAL DIRECTIONS FOR USE

- Dilute from 1:4 to 1:10 with warm water as follows:
 - Regular build-up 1:10
 - Heavy build-up 1:5
 - Burnished build-up 1:4

Test product in a small area to determine most effective dilution and to insure compatibility.

- Apply liberally to small area of floor, making sure surface remains wet until removed.
- Allow to remain approximately 3 to 5 minutes, then agitate with mop or machine agitate with appropriate pad. Wait an additional 3 to 5 minutes, then simply pick up with mop, vac or automatic scrubber.
