

Efficiently removes ice melt and alkaline residue from tile floors (after stripping). Leaves the floor properly conditioned and film free, ready to accept re-application of new floor sealer and finish. Superb time and labor saver, highly concentrated, use at only 1/2-1 oz. per gallon of water. Excellent for use on resilient and non-resilient tile floors, mineral (marble, slate, etc.) surfaces and concrete or quarry tile in removing hard water, detergent and uric acid (urine) deposits. Aids in burnishing response by reducing surface tension.
