

MAXIMUM CLEANING POWER... a super concentrated industrial cleaner/degreaser... specially formulated with twice the ionic soil capture power for heavy duty cleaning requirements. Performs a variety of difficult industrial cleaning tasks where standard liquid detergents and powdered cleaners would fail. This superb, formulation includes a controlled blend of surfactants, grease emulsifiers and water soluble solvents to provide high caliber performance.

MULTIPLE APPLICATIONS... performs effectively in many different situations... dip tanks for degreasing and corrosion protection, spray and steam cleaners for heavy equipment, conveyors and engines, as well as automatic scrubbers.

GENERAL DIRECTIONS FOR USE

For general maintenance, the following ratios with water are recommended:

- 1. Light soil 1:128
- Medium soil 1:16
- Heavy build-up 1:8
- Extremely difficult soil 1:2
- 2. Dip tank degreaser and corrosion protection 1:16
- 3. Pressure washers and steam cleaners 1:128
- 4. Automatic scrubbing machines 1:128

During food service application of product, always rinse cleaned surface with water.

These directions can be modified depending upon the soil conditions. In some cases, a stronger solution may be required. Other times, a lesser concentration may perform the task and afford greater economy.
